Software Engineer

 Feb 2025 - Present

World Health Organization (WHO)

Accomplishments:

- Developing and maintaining scalable, high-performance web applications.
- Creating database schemas and queries in PostgreSQL, optimizing data integrity for complex applications.
- Design, develop and customization of responsive frontend user interfaces using different UI Libraries.
- Utilizing TypeScript for client and server-side codebases, enhancing code quality, maintainability.
- Implemented the MVC architecture and developed RESTfull APIs for different services.
- Employing cloud services and CI/CD pipelines to streamline deployment processes.
- Enhanced application security with data encryption and secure storage practices.
- Responsible for generating statistical reports based on the manipulation of the database systems.

Achievements (Multiple Projects):

- Registered 34,50+ authorized medicines in the national database.
- Managed 120+ pharmaceutical companies/manufacturers.
- Processed 42+ medicine testing requests digitally.
- Managed 28+ laboratory assessments and test reports.
- Registered 147+ medicine samples submitted for quality evaluation.
- Registered 3,758+ healthcare professionals in the training database.
- Identified training needs across 25+ provinces/regions.
- Managed 107+ training programs.
- Registered 197+ trainers and training institutions.
- Managed inventory data from 29+ healthcare facilities and organizations.
- Tracked 3,101+ medicines and pharmaceutical products.
- Recorded 3,131+ medicine transactions and stock movements.

Full-Stack Software Engineer

 Jan 2023 - Feb 2025

Peace Global Logistics (PGL)

Accomplishments:

- Developing and maintaining scalable, high-performance web applications.
- Utilizing OpenAI & Llama APIs for the organization needs.
- Creating database schemas and queries in PostgreSQL, optimizing data integrity for complex applications.
- Design, develop and customization of responsive frontend user interfaces using different UI Libraries.
- Utilizing TypeScript for client and server-side codebases, enhancing code quality, maintainability.
- Implemented the MVC architecture and developed RESTfull APIs for different services.
- Employing cloud services and CI/CD pipelines to streamline deployment processes.
- Enhanced application security with data encryption and secure storage practices.
- Development and implementation of information and documentation management system.
- Responsible for generating statistical reports based on the manipulation of the database systems.

Achievements:

- Contributed to the development of a large-scale ERP platform with 50+ integrated business modules. Worked within a cross-functional team of 20+ software engineers following enterprise software development practices.
- Registered 30,000+ Vehicles, 50,000+ Shipments, their invoices and much more.

Full-Stack Engineer

 Feb 2021 - Jan 2023

Zippylink ICT Services

Accomplishments:

- Providing technical support to database and networking teams of Zippylink.
- Design, develop and customization of responsive frontend user interfaces using different UI Libraries.
- Implemented the MVC architecture and developed RESTfull APIs for different services.
- Write well-designed, testable code and Produce specifications and determine operational feasibility.
- Establishing and maintaining databases and strong connections with all project partners.
- Conducting and participating in project planning, scheduling and design discussions.

Afghanistan Information Management Services (AIMS)

Accomplishments:

- Implemented the Content Management System and developed Website for AIMS.
- Developed and maintaining MIS for AIMS and keep updating the features as required.
- Responsible for generating statistical reports based on the manipulation of the database systems.

VOLUNTEERING / INTERNSHIPS**Software Development (Full-Stack) Intern**

📅 Sep 2020 - Mar 2021

NEXUSSBERRY Software Solutions (Lahore Pakistan)

Information Communication Technology Intern

📅 May 2020 - Aug 2020

COMSATS Pixters Society

EDUCATION**Bachelor of Science (Software Engineering)**

📅 2021

COMSATS University Islamabad (Lahore Campus)

Diploma of Information Technology (DIT)

📅 2018

Suffa Institute of Information Technology (KPK Pakistan)

Cisco Certified Network Associate (CCNA)

📅 2016

Website Development

Suffa Institute of Information Technology

LANGUAGES & TOOLS**Lingos:**

English (Proficient) | Indian/Urdu (Fluent) | Pashto/Dari (Native)

Tools:

Packet Tracer | Google Workspace | Excel.

Project Management:

MS Project | Trello | Jira | Asana | Notion | Slack | Github.

Teck Skills:

Next.js | Nest.js | Laravel | DevOps | RESTfull APIs | Prisma & Type ORMs.

DBMS:

MySQL | PostgreSQL | MongoDB.
